PROCEEDINGS:
TENTH INTERNATIONAL CONFERENCE
ON CONCRETE PAVEMENTS

“SUSTAINABLE SOLUTIONS
TO
GLOBAL TRANSPORTATION NEEDS”

Organized by:
INTERNATIONAL SOCIETY
FOR CONCRETE PAVEMENTS

in Cooperation and in Partnership with:
TRANSPORTS QUÉBEC

and in Partnership with:
HOLCIM, CANADA

JULY 8-12, 2012
QUÉBEC CITY, QUÉBEC, CANADA

Volume I of II
FOREWORD

These are the proceedings for the Tenth International Conference on Concrete Pavements, which was organized by the International Society for Concrete Pavements (ISCP) and held in Québec City, Québec, Canada on July 8-12, 2012. This is the tenth in a series of such conferences to bring together experts from all over the world to discuss the state of the art of concrete pavement design, construction, evaluation, performance, and rehabilitation.

The First International Conference on Concrete Pavement Design was held at Purdue University on February 15-17, 1977. The Second International Conference on Concrete Pavement Design was held in Indianapolis, Indiana on April 14-16, 1981. Both of these conferences were planned and organized by Eldon J. Yoder, Professor of Civil Engineering at Purdue University. The Third International Conference, dedicated to his memory and his many contributions to the engineering profession, was held on April 23-25 at Purdue University. The Fourth and Fifth conferences were also held on the Purdue Campus in 1989 and 1993, respectively. The Sixth Conference was held in Indianapolis, Indiana in 1997. The Seventh Conference was held at the Disney Coronado Springs Resort in Orlando, Florida, on September 9-13, 2001. The Eighth Conference was held in Colorado Springs, Colorado on August 14-18, 2005. The Ninth Conference was held in San Francisco, California on August 17-21, 2008.

The papers presented in these proceedings were selected through peer review from manuscripts submitted prior to February 2012. Eighty-three papers were accepted for this conference on the basis of the peer review comments. The papers published in these proceedings have been organized in the order as was planned for the general program, which is described beginning on page vii.

We would like to take this opportunity to thank the authors and the many reviewers who volunteered their time to ensure that the papers that appear in these proceedings are of the highest quality. We wish to thank the members of the conference steering committee, the editorial committee, the student competition committee, the workshop committee and all of the workshop chairs and speakers, the entertainment committee, and the technical visit committee for their tireless efforts in developing each of the many components that comprised the overall conference program. We extend special thanks to all of the program sponsors for their financial support, and we gratefully acknowledge the contributions of the conference collaborators for their efforts in promoting the conference. We are especially appreciative of the contributions of the conference host and partner, Transports Québec and partner, Holcim Canada.

Finally, we would like to thank: Émilie Levesque, Catherine Blais and the rest of the staff at AGORA Communications for their superb assistance in managing the conference; Sharon Prochnow (National Concrete Pavement Technology Center) and Laura Taylor (Michigan State University) for all of their assistance in registration and correspondence matters; and Amy M. Dean for the graphic design and development of the conference program and other materials, and for editing, formatting and organizing the conference proceedings.

Tim Smith
10th ICCP Conference Chair

Mark B. Snyder
ISCP President
CONFERENCE STEERING COMMITTEE:

Tim Smith  Transportation Engineer (CANADA), 10th ICCP Chair
José Balbo  Universidade de São Paulo (BRAZIL), 10th ICCP Co-Chair
Jake Hiller  Michigan Technological University (USA)
Elin Jensen  Lawrence Tech University (USA)
Bryan Perrie  Cement & Concrete Institute (SOUTH AFRICA)
Luc Rens  FEBELCEM (BELGIUM)
Mark B. Snyder  ACPA - PA Chapter (USA)
Sherry Sullivan  Cement Association of Canada (CANADA)
Guy Tremblay  Transports Québec (CANADA)
Sam Tyson  Federal Highway Administration (USA)

CONFERENCE SPONSORS

Platinum

Gold

Silver

Bronze

Canadian Airfield Pavement Technical Group
Manitoba Infrastructure and Transportation
Precast/Prestressed Concrete Institute (PCI)
Stantec Consulting Ltd.

COLLABORATORS

EUPAVE
Federal Highway Administration (FHWA)
Office du tourisme de Québec
National Concrete Pavement Technology Center at Iowa State University
Transportation Association of Canada
Transportation Research Board (TRB)
MISSION
The mission of the society to facilitate the advancement of knowledge and technology related to concrete pavements through education, technology transfer and research at the international level.

The Society will gather and disseminate information for the concrete pavement community. The Society’s efforts will promote technological advancements and competence of its members, leading to improved concrete pavement performance.

EXECUTIVE OFFICERS:
President: Mark B. Snyder, American Concrete Pavement Association-PA Chapter (USA)
   president@concretepavements.org
Vice-President: José Balbo, Universidade de São Paulo (BRAZIL)
   vice-president@concretepavements.org
Secretary-Treasurer: Neeraj Buch, Michigan State University (USA)
   secretary-treasurer@concretepavements.org
Past President: Dan G. Zollinger, Texas A&M University (USA)
   past-president@concretepavements.org

BOARD OF DIRECTORS (AS OF JULY 8, 2012)
Anna-Carin Brink    Australian Road Research Board (AUSTRALIA)
Juan Pablo Covarrubias    TCPavements, Inc. (CHILE)
James Grove    Federal Highway Administration (USA)
Jake Hiller    Michigan Technological University (USA)
Lev Khazanovich    University of Minnesota (USA)
Erwin Kohler    Dynatest Consulting, Inc. (CHILE)
Somayeh Nassiri    University of Alberta (CANADA)
Bryan Perrie    Cement and Concrete Institute (SOUTH AFRICA)
Luc Rens    FEBELCEM (BELGIUM)
Jeff Roesler    University of Illinois (USA)
Tim Smith    Transportation Engineer (CANADA)
Bo Tian    Research Institute of Highway (CHINA)
George Vorobieff    NSW Road & Maritime Services (AUSTRALIA)
Leif Wathne    American Concrete Pavement Association (USA)

Note: In addition to the elected board members, several liaison members from non-US countries regularly attend the board meetings. The Society encourages international liaison membership to the board to ensure that the Society continues to maintain global representation.
**Reviewers**

The 10th ICCP would not have been possible if not for the efforts of all of the authors and reviewers of the delegate manuscripts that were presented in the various technical sessions (including the poster board session).

*The ISCP Editorial Committee gratefully acknowledges the contributions and efforts of all of the following individuals, who served as reviewers:*

*Bryan Perrie and Anna-Carin Brink, Editorial Committee Co-Chairs*
SUNDAY, JULY 8

PLENARY SESSION
Moderator: Tim Smith, ICCP Conference Chair

Keynote Addresses:
- Pavement Type Choice and Sustainable Development Perspective
  Anne-Marie Leclerc, Ministry of Transportation - Québec, Canada
- Sustainability Policies in Europe - Challenges and Opportunities for Concrete Pavements
  Luc Rens, EUPAVE (Belgium)
- Concrete Pavements Sustainability Issues in South America
  José Balbo, Universidade de São Paulo (Brazil)
- United States Perspective on Sustainable Transportation and Livability
  Suneel Vanikar, FHWA (USA)

Presentation:
Summary of the Third Advanced Workshop on Concrete Pavements
Jeffery Roesler, University of Illinois (USA)

PROCEEDINGS: VOLUME I

PAPER TITLES

Targeted Comparative Research Efforts: A New Value for International Conferences
Emmanuel Diependaele, KPMD Consultant (Belgium) ................................................. 1-9

TECH SESSION 1: PERVIOUS PAVEMENT; PAVEMENT MECHANICS (1)
Moderator: Anne Beeldens, Belgian Road Research Council (Belgium)
Mix Design Method and Void Performance of Concrete for Pervious Concrete Pavement
Satoshi Kajio, Katsuro Kokubu, Atsushi Ueno and Kimitaka Uji .................................. 10-22
Evolution of Pervious Concrete Pavement at the Ministry of Transportation Ontario
David Rhead ................................................................. 23-37
Performance of Pervious Concrete Pavement in Freeze-Thaw Conditions and With Winter Maintenance
Vimy Henderson, Susan Tighe and Jacques Bertrand ........................................... 38-52
Effect of Nonuniform Foundation Support on Concrete Slab Responses
Alexander Brand and Jeffery Roesler ................................................................. 53-67
Evaluation of the Linear Damage Assumption in JPCP Bottom-up Fatigue Cracking
Nicholas Brake and Karim Chatti ................................................................. 68-81

MONDAY, JULY 9

TECH SESSION 2: PAVEMENT MECHANICS (2)
Moderator: Geoff Ayton, NSW Roads & Maritime Services (Australia)
Structural Modeling of Rigid Pavement with Load-Rate Dependent Subgrade
Priyam Saxena and Lev Khazanovich ................................................................. 82-93

Methodology for Establishing Permanent Curl/Warp Temperature Gradients in Jointed Plain Concrete Pavements
Somayeh Nassiri and Julie Vandenbossche ....................................................... 94-110

Pavement Type Hysteresis and Truck Rolling Resistance
Carl Anders Lenngren ................................................................. 111-123

Surface Stresses of Thick Concrete Pavement Slabs Due To Traffic Loads and Non-Linear Temperature Distributions
Tatsuo Nishizawa, Takato Ozeki and Hirotaka Kawano .................................. 124-137

Causes and Effects of Longitudinal Shrinkage and Temperature Stresses on JPCP for Dutch Conditions
Mauricio Pradena and Lambert Houben ....................................................... 138-150
Tech Session 3: Precast and/or Prestressed Concrete Pavements

Moderator: Tom Kazmierowski, Ministry of Transportation - Ontario (Canada)

Precast Prestressed Concrete Pavements for Sustainable Pavement Rehabilitation in the USA
David Merritt and Sam Tyson .......................................................... 151-162

Technical and Construction Considerations for Jointed Precast Concrete Pavement Applications
Neeraj Buch, Shiraz Tayabji, Dan Ye and Wouter Brink .......................... 163-176

Building Contoured Pavements With Precast Concrete Pavement Slabs
Peter Smith ..................................................................................... 177-194

New Innovations in Precast Concrete Pavement
Tinu Mishra and David Merritt .......................................................... 195-211

Experiences Resulted from Construction of Two-Way Post-Tensioned Concrete Pavement
Andrzej Seruga and Rafał Szydlowski ............................................... 212-225

Tech Session 4: Design Issues

Moderator: Tatsuo Nishizawa, Ishikawa National College of Technology (Japan)

Effect of Traffic Load Characterization (ESAL versus Axle Load Spectra) on Rigid Pavement Performance
Syed Haider, Karim Chatti and Neeraj Buch ......................................... 226-235

Effect of PCC Material Properties on MEPDG Jointed Plain Concrete Pavement (JPCP) Performance Prediction
Halil Ceylan, Sungwhan Kim, Charles W. Schwartz, Rui Li, and Kasthurirangan Gopalakrishnan ................................................................. 236-251

Design of Concrete Slabs with Optimized Geometry and Built-In Curling Effect on Performance
Juan Pablo Covarrubias V ................................................................ 252-265

Effect of Built-in Curling On Concrete Pavement Performance and Design in Chile
Juan Pablo Covarrubias V, Jeffery Roesler, Victor Roco and Carlos Binder ................................................................. 266-285

Lessons Learned from MEPDG Development: A Confession of the JPCP MEPDG Developers
Lev Khazanovich and Michael Darter .................................................. 286-301

Tech Session 5a: Composite Pavement Design & Performance

Moderator: Sam Tyson, Federal Highway Administration

Composite Pavement Systems – A Sustainable Approach for Long-Lasting Concrete Pavements
Shreenath Rao and Michael Darter ................................................... 302-320

Development of Innovative Techniques for the Instrumentation of Composite and Wet-on-Wet Pavement Sections at MnROAD
Julie Vandenvossche, Manik Barman, Zichang Li and Thomas Adams ................................................................. 321-338

PCC Slab Temperature Gradients as a Function of Structure and Environment; Experience from the SHRP II R21 Composite Pavement Test Track
Erdem Coleri, Lorina Popescu, James Signore, Rongzong Wu and John Harvey ................................................................. 339-356

Tech Session 5b: Sustainability

Moderator: Ozlem Aslan, EUPAVE (Belgium)

Fabio Miseri and Paola Di Mascio .................................................. 357-363

Pavement Management: Key to Sustainable Concrete at the World’s Busiest Airport
W. Charles Greer, Jr., Subash Reddy Kuchikulla and James L. Drinkard ................................................................. 364-377
**TUESDAY, JULY 10**

**Tech Session 6: Peer-Reviewed Poster Session Titles**

**Pavement Mechanics**
- Quantifying Components of Permanent and Cyclic Warping in Concrete Pavements  
  Rita Lederle and Jacob Hiller .............................................................. 378-392
- Coupled Thermal and Moisture Modeling of Jointed Plain Concrete  
  Pavements: A Sensitivity Study  
  Yinghong Qin and Jacob Hiller .............................................................. 393-407
- Assessment of JPCP Slab and Joint Movement under Multiple Structural and Environmental Conditions  
  Rongzong Wu, James Signore, John Harvey and Erdem Coleri .................. 408-421
- Impact of Short-Wave Solar Absorptivity on Jointed Plain Concrete Pavement Response  
  Jacob Hiller and Yinghong Qin .............................................................. 422-434

**Roller-Compacted Concrete**
- Roller Compacted Concrete for Road Base Layer with RAP and Steel Fibers: 
  Viscous Properties and Description of Experimental Sites  
  Kevin Bilodeau, Cédric Sauzéat, Hervé Di Benedetto and François Olard .... 435-448
- Initial Results of APT Evaluation of Roller Compacted Concrete 
  Performance in South Africa  
  Louw du Plessis, George Rugodho and Steve Musundi .......................... 449-464

**Pavement Type Selection**
- An Industry Perspective on Elements Required to Create Competition in Alternate Pavement Type Selection: A Case Study for North Carolina  
  James Mack, Patrick Thiel and Jerry Reece .......................................... 465-479
- Expansion of the Concrete Pavement Network in Québec with the Update of Departmental Policy on Pavement Selection Type  
  Denis Thébeau ....................................................................................... 480-490
- Pavement Life Cycle Cost Analysis Based on Hysteresis Data and Analysis of Fuel Consumption Measurements  
  Leif Fälldner and Carl A. Lenngren ..................................................... 491-500
- Life-Cycle Assessment for Concrete and Asphalt Pavement at the Network Scale  
  Ronald Collette ...................................................................................... 501-516
- Impact of Discount Rate on Long Life Pavement Capital Improvements: 
  A Discussion of the Financial Inputs  
  Steven Tritsch ........................................................................................ 517-527

**Pavement Performance**
- Long-Term Performance of Phase I Jointed Concrete Pavement Test Sections at the MnROAD Facility  
  Thomas Burnham .................................................................................... 528-545
- Impact of Farm Equipment Loading on Rigid Pavement Performance Using Finite Element Analysis  
  Shiyun Wang, Halil Ceylan, Sunghwan Kim, Kasthurirangan Gopalakrishnan, Lev Khazanovich and Shengtai Dai ........... 546-560
- Prediction of Longitudinal Fatigue Cracking in Rigid Pavements Using RadiCAL  
  Jacob Hiller, James Signore, Venkata Kannekanti, Imad Basheer and John Harvey ......................................................... 561-576
- How to Design and Construct Quieter Concrete Pavements  
  Robert Rasmussen, Richard Sohaney, Gary Fick and Thomas Cackler ....... 577-587
**Proceedings: Volume II**

**Paper Titles**

**Tuesday, July 10**

**Pavement Preservation/Rehabilitation**

Alberta Transportation's First Concrete Pavement Preservation and Rehabilitation Project
Marta Juhasz, Jim Gavin and Mike Gerlinsky .............................................. 588-600

Field and Laboratory Performance of Cementitious Partial Depth Repair Materials in Cold Climates
Haithem Soliman and Ahmed Shalaby .......................................................... 601-615

Long Term Performance of Sustainable Concrete Pavement Preservation Strategies in Canada
Tom Kazmierowski and Susanne Chan ......................................................... 616-628

Implementation of Polyester Concrete Grout in Dowel-Bar Retrofit of Jointed Plain Concrete Pavements
Shakir Shatnawi ............................................................................................... 629-642

**Materials**

Properties of Modern Flowable Fill Incorporating Rapid-Setting Cements: Laboratory and Field Studies of Dry Placement Method
Jonathon Griffin, Lucy Priddy and David Pittman ........................................... 643-658

Internal Curing with Lightweight Aggregate, The Common Sense Contribution to Sustainable Concrete Pavements
Igor De la Varga, John Ries, Jeff Speck, George Grygar,
Jeff Speck and Ken Harmon ........................................................................ 659-672

**Airfield Pavements**

Detection of Voids under a Concrete Airfield Parking Apron using a Heavy Weight Deflectometer (HWD)
Victor G Cervantes and L. Javier Malvar ...................................................... 673-683

**Dowel Bars**

Field Investigation of Dowel Misalignment and Potential for Joint Lock-Up
Jagannath Mallela, Shreenath Rao and Paul Littleton ...................................... 684-694

Newly Developed GFRP Dowel Bars for Jointed Plain Concrete Pavement
Mathieu Montaigu, Ehab Ahmed,
Brahim Bennokrane and Denis Thébeau ..................................................... 695-705

**CRCP**

Ben Schoeman CRCP: Findings from an Accelerated Pavement Test on the Shoulder of a 23-year-old Pavement
Ebenhaezer Roux de Vos and Jurgens Weidemann ......................................... 706-721

**Sustainability Through Recycling**

Sustainable Concrete Pavements with Blended Cements
Julie Buffenbarger, Kenneth Kazanis and Matthew Miltenberger ........... 722-740

Fresh and Hardened Properties of Concrete with Fractionated Reclaimed Asphalt Pavement
Alexander Brand, Ryan Smith, Jeffery Roesler,
Imad Al-Qadi and Steven Gillen ...................................................................... 741-754

**Wednesday, July 11**

**Tech Session 7: Mixture Design**
Moderator: Sherry Sullivan, Cement Association of Canada (Canada)
Will More Cement in Your Mixture Hurt You?  
Jim Grove and Peter Taylor ................................................................. 755-767
Preliminary Optimization of Concrete Paving Mixtures for  
Sustainability and Performance  
Tim Cost ........................................................................................... 768-783
Experimental Investigation of Young Concrete Properties Needed for Proper  
Analysis of Concrete Pavements’ Behavior During the Hardening Process  
Andrzej Seruga, Mariusz Zych and Wojciech Poliński ........................... 784-800
Performance of Concrete Pavements with Marginal Aggregates:  
Laboratory Investigation  
Peter G. Bly and Charles A. Weiss, Jr. .................................................. 801-827
Evaluation of Cement Content and W/C Influence on Mechanical Behavior  
of Concrete Pavements  
Negar Rahemi, Nariman Afzali and Navid Nozad .................................. 828-840

**Tech Session 8: Pavement Ride Quality & Distress Mechanisms**
Moderator: Guy Tremblay, Transports Québec (Canada)
Ride Quality Measurement and User Ratings: Results from Main Field Trials  
Hans Prem and Ziming Tu ............................................................... 841-859
Finite Element Modeling of Premature Transverse Cracking Due to  
Paving Adjacent Lanes Separately  
Feng Mu, Kerri A. Cutright and Julie M. Vandenbosch ................................ 860-873
Transverse Joint Distress and Mid-slab Cracking Distress in  
PCC Pavements: A Petrographers Perspective  
David Lankard .................................................................................. 874-890
Cryogenic Suction–A Major Salt Scaling Mechanism in Highway Concrete  
Zhichao Liu, Youngjiae Kang, Will Hansen and Claus Borgnakke ................ 891-900
Cracking in Concrete Pavements Due to Alkali-Silica-Reactions  
Rolf Breitenbuecher and Christoph Sievering ...................................... 901-911

**Tech Session 9: Innovation in Concrete Pavements**
Moderator: Maria de Conceição Monteiro Azevedo, CAeMD, LDA (Portugal)
Environmental Benefits of Innovative Photocatalytic Cementitious Road Materials  
Gian Luca Guerrini, Anne Beeldens, Maurizio Crispino,  
Giovanni D’Ambrosio and Stefania Vismara ........................................ 912-923
A Double-Layered Photocatalytic Concrete Pavement: A Durable  
Application with Air-purifying Properties  
Anne Beeldens and Elia Boonen ......................................................... 924-935
Distribution of Fiber Reinforcement in Thin Concrete Overlays  
Amanda Bordelon and Jeffery Roesler ............................................... 936-955
Structural Aspects of the Experimental Short CRCP in Sao Paulo  
José Balbo, Antonio Massola and Deivid Pereira .................................. 956-966
Using Initiators in Portland Cement Concrete Pavements to  
Propagate Transverse Joint Cracking  
Malcolm Lim, David Gress and Peter Foster ...................................... 967-978

**Tech Session 10: NDT & Pavement Evaluation**
Moderator: Louw du Plessis, CSIR (South Africa)
Synthetic Fiber Content Measurement in Concrete Using Neutron Thermalization  
Armen N. Amirkhanian and Jeffery R. Roesler .................................... 979-989
Evaluation of Technologies for Nondestructively Determining  
Concrete Pavement Thickness  
Lulu Edwards .................................................................................. 990-1007
Shear Wave Method for Concrete Pavement Diagnostics  
Kyle Hoegh, Lev Khazanovich and Tom Yu ......................................... 1008-1020
Rigid Pavement Backcalculation Using Differential Evolution  
Kasthurirangan Gopalakrishnan and Halil Ceylan ................................. 1021-1035
The Application of X-Ray Fluorescence to Assess Proportions of Fresh Concrete  
Ezgi Yurdakul, Peter C. Taylor and Halil Ceylan ................................... 1036-1049
THURSDAY, JULY 12

TECH SESSION 11: AIRFIELD PAVEMENTS
Moderator: Charles Greer, AMEC (USA)
Critical Stress Analysis of Large Aircraft on Airport Rigid Pavement Using FEAF
Yuanguo Chen, Qiang Wang and David Brill ............................................. 1050-1067
A Case Study of Slab Cracking and Delamination in BCO Construction at the
Bush International Airport (IAH) - Part I: Impact on Service Life
Steve Byington, Rashid Abu Al-Rub,
Stefan Hurlebaus and Dan Zollinger ....................................................... 1068-1080
Challenges of Construction of Portland Cement Concrete
Pavement at Calgary International Airport
Bozena Czarnecki, Ward Johnston and Curtis Boutellier ......................... 1081-1090
Effects of Non-Linear Thermal Stress on Fatigue Damage of
Airport Concrete Pavements
Tatsuo Nishizawa, Takato Ozeki,
Kunihito Matsui and Hirotaka Kawano .................................................. 1091-1104
A Case Study of Slab Cracking and Delamination in BCO Construction at the
Bush International Airport (IAH)-Part II: Causative Factors
Adil Godiwalla, Dan Zollinger and Dallas Little ........................................ 1105-1121

TECH SESSION 12: SURFACE CHARACTERISTICS
AND CONCRETE OVERLAYS
Moderator: Tom Cackler, National Concrete Pavement Technology Center (USA)
The Search for the Best Concrete Surface Texture Relative to
Noise and Skid Resistance in Québec
Julie Roby, Marina Beaudoin and Denis Thebeau .................................... 1122-1137
Identifying Fine Aggregates Prone to Polishing in PCC Pavements
Marc Rached and David Fowler ............................................................... 1138-1151
Concrete Pavement Texture and Optimizing Functional Performance
Robert Rasmussen and Richard Sohaney ............................................... 1152-1164
New Guidelines for Exposed Aggregate Surface in the Netherlands
George Jurriaans, Wim van Keulen and Wim A. Kramer ......................... 1165-1172
Québec Contractor Experience with Unbonded Concrete Overlays
Jean-Pierre Turgeon and Pierre-Louis Maillard ....................................... 1173-1184
